HARRY POTTER™ COLLECTION

PG. 6-9

GROW BOLD!

Have you ever wondered about the secret to a happy life? Scientists and old folk-wisdom agree: a content person is amongst other things, healthy, self-confident and has the courage to try new things. A confident person stands up for themselves, but know that it sometimes means making mistakes. After all, we learn through these mistakes! The fathers of two future first-graders were also clear: we want our children to grow into such people!

At **PRESCO GROUP**, they have assembled a team of people just like them: They are not afraid of challenges, come up with new original ideas, and love modern design. They follow trends and at the same time pay close attention to quality, ergonomics and, above all, the health of their little consumers. Out of these qualities was born the original Czech brand **BAAGL** and with it a collection of exceptional briefcases, backpacks and wide range of other school supplies.

But be aware: They are not intended for those who prefer to shy away in the corner – growing up with BAAGL means **GROWING BOLD!**

And because everyone associated with the BAAGL brand cares about children's futures, we also participate in the exceptional **TERIBEAR** project from the 'Tereza Maxová Foundation for Children' – helping underprivileged children to also grow up with courage.

NEWS

NEW BACK SYSTEM

CORE and SKATE collections – The CORE and SKATE series backpacks feature the innovative ERGO ANATOMIC SYSTEM II back system, which guarantees the least possible burden on the child's back.

(pg. 40-51)

WARNER BROS

WARNER BROS – Harry Potter and Batman return again this year in our new collection, with many products featuring these much-loved heroes.

(pg. 6-11)

NEW AIRY BACKPACKS

New AIRY backpack – AIRY school backpacks are the most striking addition to this year's new collection. This compact backpack is very lightweight and extremely practical thanks to the intuitive front pocket fastening.

(pg. 32-35)

PRESCHOOL BACKPACKS

Preschool collection – Cheerful colours, cute motifs and, above all – durable quality with the lowest possible weight. This series of preschool backpacks is suitable for children from three years of age. The attractive, yet understated arrangement of colours and motifs will appeal to both children and adults.

(pg. 74-77)

EGGY CASE

The new EGGY case – With its practical internal structure, the cleverly designed new EGGY case is not just a pencil case. It can also be used as a travel case for documents or cosmetics.

(pg. 62-63)

PRESCHOOL ACCESSORIES

We've expanded our collection of accessories for pre-schoolers – New mini wallets and bags for kindergarten or for trips will bring a smile to your face.

(pg. 78-81, 107)

STRONGER CASES

Collapsible briefcases – Practical briefcases, which can be folded and unfolded easily in a few seconds thanks to the ingenious system of snaps, bring completely new possibilities for storing school supplies. Now even stronger and more durable!

(pg. 90-91)

TRITAN BOTTLES

Healthy tritan bottles – Designer bottles made of a unique, healthy material are equipped with a special lockable lid that won't leak a drop and is easy to use. We have also recently added 350ml mini bottles to the range.

(pg. 92-95)

HARRY POTTER™ COLLECTION

FOR THE LITTLE ONES

Harry Potter has arrived at BAAGL! A wonderful collection inspired by the world's most successful book series, developed in collaboration with Warner Bros., who published the box-office movies based on the books – becoming one of the most successful series in the history of cinema.

HEALTHY BACK FIRST

Our school backpacks have been developed in close collaboration with physiotherapists, bringing key ergonomic elements that guarantee healthy and comfortable wear.

FROM THE SMALLEST TO THE BIGGEST

The collection includes backpacks for children from preschool and early school age onwards. Our backpacks and accessories will delight every child, from 3-year olds to older children already at school.

DURABLE MATERIALS

We use a careful selection of suitable materials and subject our products to extreme testing to confirm their suitability for long-term use, guaranteeing durability and customer satisfaction.

BATMAN™ COLLECTION

BATMAN RETURNS

2022 is the year of Batman, who returns not only to the movie screens, but also to BAAGL, in style! Right now, the widest collection inspired by the popular action hero can be found here.

FOR A HEALTHY BACK

Our school backpacks have a unique ergonomic back shape, and some models even have an innovative sliding back system that allows you to adjust the straps to suit the child's height.

FOR ALL STUDENTS

Batman is a favourite superhero for even the smallest children, so we have added backpacks and accessories to the collection for children from the age of three onwards.

PREMIUM QUALITY

Long-term testing and careful selection of materials bring a unique level of product quality that you can truly rely on.

TERIBEAR COLLECTION

WHAT IS TERIBEAR?

Teribear is the mascot of the Tereza Maxová Foundation's Project for Children. The teddy bear design, symbolising the world of children, appears on all products in this range. A portion of proceeds from the sale of these products helps underprivileged children.

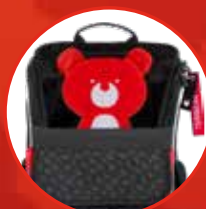

HOW DOES THE PROJECT WORK?

Teribear is a cult project popular with the general public and the media. Its goal is to promote a good cause in an innovative way. Teribear's uniquely designed products are always published in limited editions, and a portion of each sale goes to help disadvantaged children.

WHO IS IT HELPING?

Teribear helps children growing up in foster care and those at risk of being removed from their families. The main goal of the project is to reduce the number of children growing up in such institutions. More information can be found at: www.nadaceterezymaxove.cz

HOW TO GET INVOLVED?

Anyone can be a hero! It's easy. All you have to do is buy any product featuring the teddy bear logo. Together with us, you will be doing your part to help children growing up in foster care and those who are at risk of being placed in institutions. Thank you!

COOPERATION

*„PRESCO GROUP is a long-term partner of the Tereza Maxová Foundation for Children. Under the BAAGL brand, we produce briefcases, backpacks and other school supplies for Teribear. The main motto of our brand is **GROW BOLD** and we are glad that through the Foundation's projects we can give courage to the children who need it the most.”*

ASTRONAUTICS COLLECTION

COOPERATION WITH NASA

In collaboration with NASA, we have developed an eye-catching collection of bags and backpacks. Every budding astronaut needs proper equipment for space missions into the imagination.

FOR ALL STUDENTS

This collection is designed to meet the needs of students of all ages. We recommend a silver Zippy backpack for the first class with its adjustable back system. Older children will appreciate the Cubic backpack or the stylish wrap-around backpack.

REINFORCED BACK

We care very much about the healthy development of children, which is why all our school backpacks have a reinforced, ergonomically shaped back.

EASY TO OPEN

Our bags have an innovative opening system, allowing ease of access and secure fastening with quality zippers.

UNIQUE MATERIALS

We are not afraid to experiment when it comes to design. The NASA collection features a Zippy backpack with a unique sheer silver effect. High-quality neoprene and satin nylon used to make other products in the Astronautics collection have a cosmic effect. And finally, we can't overlook the quality badges featured on these products.

TRENDY DESIGN

We move with the times. Talk about space flights and interplanetary travel is very topical. The Hubble Space Telescope continues to take beautiful images of nebulae, and space trips for regular people are becoming a reality. With the Astronautics collection, we encourage the younger generation to take an interest in the universe.

GIFT INSIDE**

SAFETY FIRST

Child safety is of the utmost importance and every BAAGL school bag has enough reflective elements to ensure that the wearer is visible in the dark or in bad weather.

HEALTHY BACK

The well-designed ergonomic back in combination with the adjustable shoulder straps guarantees the lowest possible load stress for the child's back. The lightweight construction with support points has allowed us to take the load / weight ratio to a whole new level.

ERGONOMIC BACK SYSTEM

AIR ERGO ANATOMIC SYSTEM adapts perfectly to the wearer's back. It is designed to support the healthy growth of the child and to ensure adequate airflow along the spine.

STRONG CONSTRUCTION

The body of the backpack is made of solid construction, and like a turtle's shell, keeps everything inside safely protected.

TWO-POCKET ORGANIZATION

The backpack allows flexible arrangement of the contents through its two internal pockets. In addition, the front pocket contains a practical organizer with phone holder and a carabiner for keys.

COMPACT DESIGN

The backpack is designed to have a compact silhouette. The outer pockets will conform closely to their contents, and not be visible while empty.

INTERESTING FACT:

Backpacks from the Shelly collection are the lightest while at the same time having the largest volume.

NEW FIDLOCK® MAGNETIC BUCKLE SYSTEM

Intuitive, patented system for easy opening and closing. To open the school bag, simply turn the buckle. The bag will close easily and securely thanks to the magnetic system.

BAG FOR HEALTHY BACK

The well-designed ergonomic back in combination with the adjustable shoulder straps guarantees the lowest possible load stress for the child's back. The lightweight construction with support points has allowed us to take the load / weight ratio to a whole new level.

SAFETY FIRST

Child safety is of the utmost importance and every BAAGL school bag has enough reflective elements to ensure that the wearer is visible in the dark or in bad weather.

DETAILS

Clever accessories and details distinguish average backpacks from great ones – and you will find a lot of them in our backpacks. For example, a cleverly designed pocket layout that helps children organize better and save time during school breaks, and much more.

ERGO ADJUSTABLE BACK SYSTEM

Thanks to the special adjustable back system and adjustable straps, the back height and length of the straps can be easily adjusted to the current height of the wearer. These backpacks can grow together with the child and always fit them perfectly.

ZIP POCKET ON BOTH SIDES

Symmetry above all! In addition, we have combined two practical functions together: a comfortable zipper and an inner net to hold the drinking bottle.

INTERESTING FACT:

Czech design, German technology. When designing new model lines, we are always looking for a way to first-class quality, and thanks to the cooperation with the German company Fidlock, we managed to develop a unique magnetic buckle, which was tested for more than a year and immediately became very popular with both children and parents..

SAFETY FIRST

Child safety is of the utmost importance and every BAAGL school bag has enough reflective elements to ensure that the wearer is visible in the dark or in bad weather.

BAG FOR HEALTHY BACK

The well-designed ergonomic back in combination with the adjustable shoulder straps guarantees the lowest possible load stress for the child's back. The lightweight construction with support points has allowed us to take the load / weight ratio to a whole new level.

ZIPPY ADJUSTABLE BACK SYSTEM

Thanks to the special adjustable back system and adjustable straps, the back height and length of the straps can be easily adjusted to the current height of the wearer. These backpacks can grow together with the child and always fit them perfectly.

EASY TO OPEN

The Zippy backpacks have a unique folding opening system, which makes it easier for students to access all the school supplies with the bag on their desk. This larger opening allows a better overview of the contents of the backpack and facilitates easier organisation.

DETAILS

Clever accessories and details distinguish average backpacks from great ones – and you will find a lot of them in our backpacks. For example, a cleverly designed pocket layout that helps children organize better and save time during school breaks, and much more.

PRACTICAL DESIGN

The internal arrangement of the backpack allows easy organization of all the child's equipment. In addition, the backpack has flexible pockets on both sides.

INTERESTING FACT:

Zippy backpacks were the winners of a comprehensive test of school backpacks by *Téma* magazine, in collaboration with physiotherapist Iva Bílková.

40 * 25 * 20 cm

SAFETY FIRST

Your child's safety is of the utmost importance, and the new AIRY BAAGL backpack includes sufficient reflective elements to help ensure the safety and visibility of the wearer in bad weather or low-light conditions.

HEALTHY BACK

The well-designed, breathable and ergonomic back, in combination with the AIRFLOW ERGO SYSTEM guarantee the lowest possible load stress for the child's back. The lightweight construction with support points has allowed us to take the load / weight ratio to a whole new level.

NEW MAGNETIC CLICK BUCKLE

Our new AIRY backpack uses an intuitive system for easy opening and fastening. To open the backpack, lightly squeeze the two points on the sides of the buckle. To close, simply place the two parts of the buckle together, and the innovative magnet system will do the rest. It couldn't be simpler or more practical to use.

DESIGNED WITH CHILDREN

The wide range of designs in this series of backpacks is a result of close cooperation between Czech designers and elementary school children, whom are consulted about the designs and their feedback incorporated into the final product.

IMAGINATIVE DETAILS

Clever details and accessories distinguish great school backpacks from the average ones - and you'll find plenty of them here in our school backpacks.

COMPACT DESIGN, AND ACCESSORIES

The school backpack is designed to have a compact silhouette, and above all, be practical. It is possible to purchase accessories, such as pencil cases, shoe bags, and other products in matching theme to compliment the school backpack.

SAFETY FIRST

Child safety is of the utmost importance and every BAAGL school bag has enough reflective elements to ensure that the wearer is visible in the dark or in bad weather.

BAG FOR HEALTHY BACK

The well-designed ergonomic back in combination with the adjustable shoulder straps guarantees the lowest possible load stress for the child's back. The lightweight construction with support points has allowed us to take the load / weight ratio to a whole new level.

DETAILS

Clever accessories and details distinguish average backpacks from great ones – and you will find a lot of them in our backpacks. For example, a cleverly designed pocket layout that helps children organize better and save time during school breaks, and much more.

SECRET POCKET

Cubic backpacks have a hidden pocket at the bottom, which can hold a raincoat or a secret diary. The pocket is reinforced on both sides, so there is no risk of unwanted disclosure of its contents.

DESIGNED WITH CHILDREN

The wide range of designs is a result of close cooperation between designers and primary school children, whom are consulted about the designs and their feedback incorporated into the final product.

ACCESSORIES IN THE SAME DESIGN

Matching accessories for each backpack are available for purchase. The backpack can be matched with other essential things such as a pencil case, gym sack and other accessories.

SAFETY FIRST

Child safety is of the utmost importance and every BAAGL school bag has enough reflective elements to ensure that the wearer is visible in the dark or in bad weather.

BAG FOR HEALTHY BACK

The well-designed ergonomic back in combination with the adjustable shoulder straps guarantees the lowest possible load stress for the child's back. The lightweight construction with support points has allowed us to take the load / weight ratio to a whole new level.

DETAILS

Clever accessories and details distinguish average backpacks from great ones – and you will find a lot of them in our backpacks. For example, a cleverly designed pocket layout that helps children organize better and save time during school breaks, and much more.

SMART ORGANIZATION

The practically designed internal pocket layout helps to better organize the backpack, so the child has everything they need at hand. School backpacks are equipped with three individually closable compartments, an internal organizer and a pocket for up-to a 15" laptop or tablet.

DESIGNED WITH CHILDREN

The wide range of designs is a result of close cooperation between designers and primary school children, whom are consulted about the designs and their feedback incorporated into the final product.

ACCESSORIES IN THE SAME DESIGN

Matching accessories for each backpack are available for purchase. The backpack can be matched with other essential things such as a pencil case, gym sack and other accessories.

INTERESTING FACT:

The Core model line offers the widest range of backpacks. All designs were created, in collaboration with schoolchildren whose feedback influenced the final choice.

**QUALITY
DURABLE
MATERIAL**

DIMENSIONS:
19,5 × 12,5 × 5,5 cm

STRONG ELASTIC BANDS FOR HOLDING STATIONARY

Quality elastic bands in the pencil case can hold even thicker triangular crayons or markers. The pencil case can hold up to 30 of them.

REINFORCED BACK

We know how difficult it is to close a pencil case if you have thick crayons or a glue stick inside. That's why our two-sided pencil cases have a reinforced back, so they can always be closed easily.

BACKPACKS FOR THE LITTLE ONES!

The new collection of cheerful preschool backpacks for the little ones will put a smile on your little one's face.

ERGONOMICS AND LOW WEIGHT

These durable whilst ultra-light backpacks sit well on the wearer's back. The chest strap and padded shoulder straps promote healthy everyday wear. The bags also feature a practical pocket for snacks or other small items.

POPULAR MOVIE THEMES

In a special collection designed in collaboration with the famous the Warner Bros. film studio await your child's favourite characters from animations such as Tom and Jerry, Batman, Tweety, Bugs Bunny and others.

MULTIFUNCTIONAL USE

Smaller, lightweight, yet tasteful and spacious backpack for a preschooler or small schoolchild to use for a trip or children's club

MINIMAL WEIGHT AND ERGONOMICS ABOVE ALL

As the title suggests, BAAGL focuses on the production of ergonomic backpacks, developed in cooperation with Czech physiotherapists so that they are as comfortable as possible and, above all, enable healthy everyday wear.

Ease your back with BAAGL!

Among the key features of BAAGL backpacks are their minimal weight, ergonomically shaped back mimicking the anatomical curvature of the spine, and a system of easily adjustable straps. If you would like the backpack to grow with your child through the school years, look for one that is equipped with the ERGO ADJUSTABLE sliding back system!

The most striking new addition to our collection is the super lightweight and compact AIRY series backpack, which ensures the smallest possible load for your child's back. Thanks to the easy magnetic fastening of the front pocket, it is also extremely practical.

Physiotherapist Iva Bílková

Iva Bílková completed her master's degree in physiotherapy at FTVS UK in Prague. In addition, she successfully passed the international exam at the McKenzie Institute International, making her one of the few physiotherapists in the Czech Republic to hold this accreditation.

Together with her husband, she founded the Prague PHYSIOclinic, where she is the head physiotherapist. There, they successfully treat patients by combining manual physiotherapy with innovative shock wave technology. She works with pediatric patients from infancy, in whom the goal

is usually to improve psychomotor development or to improve movement skills in case of neurological and orthopedic diagnoses in patients of preschool and school age. When working with adults, she specializes in targeted help in uncovering seemingly unrelated causes of difficulties. Using both proven and innovative techniques, she relieves back pain, headaches, joint pain and other difficulties.

From the perspective of a physiotherapist, how would you rate the ergonomics of BAAGL backpacks?

BAAGL backpacks have wide straps and ergonomically padded backs that support the hips, during the stages where the thoracic spine is a bit loose. The shoulder and chest straps are very well adjustable, they can be easily tightened to match the child's height. Some backpacks even have a strap that can be tightened over the hips.

What do you like about BAAGL briefcases and backpacks?

For me as a physiotherapist, the adjustable straps, which are strong and wide, so that the weight of the backpack is well distributed, and very good padding for the lumbar and thoracic spine are excellent features. At the same time, the backpacks are made of lightweight, high-quality materials that are durable, and equipped with many reflective elements. Thanks to the breathable material and the ventilation strips, air can circulate so that the child's back doesn't sweat. The internal arrangement of the compartments is excellent, allowing the heaviest things to be placed close to the back.
